

## Morning Car Line Procedures

We have a lot of bikers, walkers and cars arriving in a short amount of time in a small area. The morning car line procedures are intended to promote the flow of traffic for those to wish to drop off and keep everyone safe.

The following map shows the preferred flow of traffic for morning car line.

- Children exit car on the **RIGHT** side of the vehicle.
- Parents should not exit the car to assist a child. If a child is too small to exit on his/her own, or has too much stuff to carry, please park on a side street and walk with them to school.
- Your child should be ready to exit with everything they need (i.e. no backpacks in trunks or front seats).
- Please pull as far forward as you can in the car line, using the whole block.
- No turning onto Arizona Ave. from either direction of S. Columbine Street. Please enter the Arizona Avenue car line from Elizabeth Street or further east. We try to minimize turning cars at the very busy intersection of Columbine Street and Arizona Ave.
